PROFESSIONAL PROFILE

I'm a 22-year-old recent graduate with a Bachelor of Science in Information Technology (BSc IT) from the University of Johannesburg, majoring in Computer Science and Informatics. I'm passionate about building software that makes a real impact — clean, intuitive, and enjoyable to use. I enjoy writing code that feels elegant and purposeful, and designing systems that solve real problems in thoughtful ways.

With a solid foundation in both theory and hands-on development, I'm always looking for opportunities to learn, improve, and push myself further. I want to be part of a team that values innovation, user experience, and collaboration, where I can contribute meaningfully while continuing to grow. If you're looking for someone who's driven, adaptable, and genuinely excited about software and design, that's me — ready to jump in and make a difference.

CORE SKILLS

- Full Stack Development (Next.js, React, ASP.NET)
- Database Management
- Data Structures & Algorithms
- UI/UX Design (Photoshop / Figma)
- Backend and APIs (Web API, SQL, C#, Python)
- Mobile Development (React Native)
- Problem Solving
- Collaboration & Communication
