CAREER OBJECTIVE

I completed my BSc Information Technology (Computer Science and Informatics) at the University of Johannesburg. I have experience building full stack software systems, database driven applications and working with cloud platforms. I am currently an IT Intern at Technolibra Solutions where I am growing into enterprise technology, SAP and AI. My goal is to become a well-rounded technology professional who can bridge software development, cloud engineering and SAP consulting, liberating organisations through technology.

EDUCATION

BSc Information Technology | University of Johannesburg | Jan 2022 – Nov 2025

- Majored in Computer Science and Informatics
- Relevant coursework: Data Structures and Algorithms, Software Engineering, Database Systems, Object Oriented Programming, Information Systems

National Senior Certificate | Bracken High School | Jan 2017 – Dec 2021

- Top Matric Learner in Computer Applications Technology (83%)
- RCL Prefect / Leader.

TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript, C#, SQL, TypeScript, VB.Net, Python (foundational)
- **Frontend:** React, Next.js, Angular, ASP.NET Web Forms, Tailwind CSS, HTML, CSS
- **Backend and APIs:** ASP.NET Core Web API, RESTful APIs, Node.js, API integration, authentication flows, system design, WCF (SOAP), Supabase (BaaS)
- **Databases and Data:** Microsoft SQL Server, Azure SQL, MongoDB, PostgreSQL, database design, queries, indexing, relational modelling
- **Cloud and Infrastructure:** Microsoft Azure, Docker, AWS (foundational)
- **AI and Productivity:** Google AI tools, prompt engineering, AI assisted development, responsible AI practices
- **Agile and Delivery:** Agile methodologies, sprint planning, iterative delivery, Trello, Git, GitHub
- **Documentation and Communication:** Technical writing, process documentation, stakeholder communication, internal guides
- **UI/UX and Design:** Figma, Draw.io, Adobe Photoshop, Framer, Webflow, Canva, Mobbin

SELECTED PROJECTS AND WORK

ZENBOX – Project Management System – Full Stack Developer 2025

- Core member in a team of 4. Analysed workflow challenges for SAS Environmental and designed a full stack project management solution delivered as a final year project
- Translated client requirements into system features including role based access, automated PDF reporting, real time task tracking, audit logging and email notifications
- Created technical documentation and collaborated with the team to make sure everything was delivered on time and worked the way the client needed
- **Tech Stack:** ASP.NET Core Web API (C#), React Native (Expo, TypeScript, Tailwind CSS), Azure SQL | [Demo](#)

JOBTRACKr – Smart Job Application Dashboard – Full Stack Developer 2025

- Built solo (from scratch) to help job seekers organise and track their applications. Designed, built and shipped entire system – it pulls incoming job application emails and extracts key information to help keep track of countless emails that come in when applying for jobs, receiving interview emails, offers, etc.

- Features include Gmail auto sync, Google OAuth, OTP login, JWT sessions and an analytics dashboard showing application trends and performance metrics
- Applied security practices throughout including input validation, SHA256 token hashing, rate limiting and XSS protection
- **Tech Stack:** Next.js, MongoDB, REST API, TypeScript | [Live App](#)

INTELLISAVE – Smart Download Manager – Developer 2024

- Built and published a Chrome extension that automatically organises downloaded files into folders based on website and file type
- Includes a smart learning feature that picks up on where you save files and suggests new rules over time. Published on the Chrome Web Store
- **Tech Stack:** JavaScript, HTML, CSS, Chrome Extensions API | [Chrome Web Store](#)

WORK EXPERIENCE

IT Intern | Technolibra Solutions (Pty) Ltd | Aug 2026 – Present

- Currently part of the IT Internship Programme

Software Developer Intern | Hitekology Solutions (Spaen4All) | Mar 2026 – Jul 2026

- Built and maintained features on the Spaen4All job portal platform using Node.js and Angular in an Agile team with daily scrums and sprint-based delivery
- Contributed to data management, writing technical documentation, UI/UX designing, software testing and workflow improvements across the platform and client projects

Call Centre Agent | Mbungela Consulting (MiWay Life Insurance) | Feb 2024 – Apr 2024

- Gained sales experience making cold calls and promoting MiWay Life products, building strong communication and customer relationship skills
- Recognised as the junior agent with the highest transfers in the first 30-day cycle. (On record)

Internet Café Assistant / IT Support | Tokoos Studios (Pty) Ltd | Oct 2022 – Apr 2023

- Provided hands on hardware and software troubleshooting, created internal documentation, designed marketing materials and managed inventory
- Delivered 24/7 client support and developed strong problem solving and communication skills in a fast paced environment

CERTIFICATIONS

- **Cloud Computing** – Camblish Training Institute, March 2026
- **Google AI Essentials** – Google & Coursera / (CAPACITI AI Skills Programme) [View Certificate](#)
- **JavaScript Algorithms and Data Structures (v9)** – freeCodeCamp, 2026 [View Certificate](#)
- **Responsive Web Design (v9)** – freeCodeCamp, 2025 [View Certificate](#)
- **Prompt Design in Vertex AI** – Google, October 2024 [View Certificate](#)
- **Call Centre Training** – Skills Excel Training Institute, January 2024 [View Certificate](#)
